

**15th European Bifurcation Club meeting, Barcelona, 18-19
October, 2019**

MEDTRONIC SYMPOSIUM

**One stent bifurcation techniques and possible
bail out solutions using multimodality imaging**

INTRODUCTION

Goran Stankovic

Bifurcation Education is Needed

- Collaboration between EBC, Visible Heart Lab (VHL) and Medtronic initiated by EBC at 2012 meeting;
- There is a need to create:
 - Educational program for fellows and young IC's, aimed to help understanding bifurcation treatment techniques, complications and outcomes;
- The idea:
 - A series of case scenarios, where trainee can learn step-by-step performance of different bifurcation stenting techniques and based on a combination of imaging technologies and computer simulation.

BIFURCATION EDUCATION: LEARNING OBJECTIVES

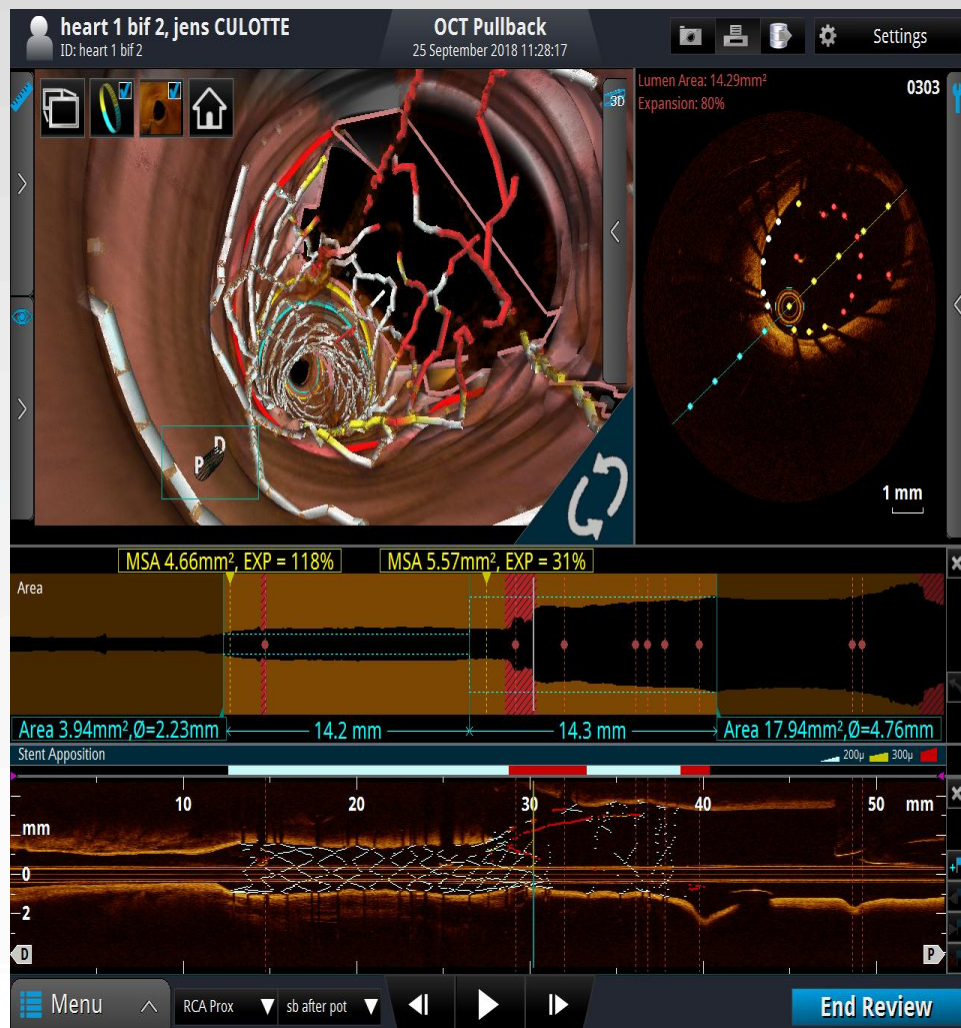

Optimization of provisional one-stent bifurcation PCI technique and possible bail out solutions using multimodality imaging, including Visible Heart lab and OCT.

13:45 – 14:30 MEDTRONIC SYMPOSIUM

Agenda:

Chair: G. Stankovic

Panel: F. Burzotta, J. Lassen, Y. Chatzizisis

2' Introduction

G. Stankovic

15' Provisional technique up to T/TAP technique with endoscopic Visible Heart imaging & OCT F. Burzotta

3' Discussion

12' Culotte technique with endoscopic Visible Heart imaging & OCT

J. Lassen

3' Discussion

7' Post-procedure flow simulations

Y. Chatzizisis

3' Take home messages

G. Stankovic
