

# The dream of interventional cardiologist for LM disease

- ✓ A stent with a good radial strength
- ✓ With more than 2 connectors
- ✓ A good visibility
- ✓ A low risk of longitudinal compression
- ✓ An optimal scaffolding and drug delivery
- ✓ An easy side branch access

# The dream of interventional cardiologist for LM disease:

# The dream of interventional cardiologist for LM disease:

# **LM bifurcation PCI with the novel Megatron Synergy Stent: a case based discussion**

**Chair:** T. Lefèvre, J. Lassen

**Panel :** G. Stankovic, M. Pan, M Ferenc, A. Chieffo

**BOSTON SYMPOSIUM**

# will the dream come through ?

A patient with complex and severely calcified LM bifurcation lesion

## **A. Banning**
