MEETING VENUE

FRIDAY 28 SEPTEMBER

13:00 – 20:00: INDUSTRY AND PARALLEL SESSIONS
MELIA PALACE HOTEL

Address: Paseo Alameda 32

20:30 – 22:00

CD CINE SESSION

PALAU DE LA MUSICA

Paseo Alameda 30

From 22:00
WELCOME BUFFET DINNER
HOLIDAY INN HOTEL

Paseo Alameda 38

SATURDAY 29 SEPTEMBER

PLENARY SESSION
PALAU DE LA MUSICA

Paseo Alameda 30

GALA DINNER VENUE

L'Hemisfèric
Ciudad de las Artes y las Ciencias

EBC SECRETARIAT

Accommodation:

Dianne Hall : +34 627 32 73 15

Flight:

Christophe Menges : +34 627 111 406

Logistics – Sponsors:

Alexandra Le Crouerour - +34 677 53 79 67

3rd European Bifurcation Club

Valencia, Spain, September 28-29, 2007

Organised by:

Remo Albiero, Olivier Darremont David Hildick-Smith, Jens Lassen, Thierry Lefèvre, Yves Louvard,
Goran Stankovic & Manuel Pan

FRIDAY 28 SEPTEMBER			LECTURES / PRESENTATIONS		
Investigator meeting					
11:00-13:55	Alameda - 6th Fl	Tryton Medical (by invitation only)			M. Pan
Pre EBC meetings		MELIA PALACE HOTEL			Chair: L. Thuesen, A. N
13:00-13:55	MENORCA	INVATEC	S. Hoffmann, P. Stella, R. Albiero		Y. Louvard
		3' Introduction	R. Albiero		S. Carlier
		13+5' Advantages and limitations of the TwinRail	S. Hoffmann		J. Ormiston
		13+5' Best cases with a dedicated bifurcation stent - TwinRail	P. Stella		B. De Bruyne
		10' Dedicated balloon for provisional SB stenting optimisation	R. Albiero		G. Finet
		5' Conclusion	P. Stella		
14:00-14:55	TABARCA	ABBOTT	T. Lefèvre, O. Darremont, J. Ormiston		
		5' Introduction	G. Lachkar		
		15 + 5' Abbott vascular's Bifurcation DES (concept, bench data, etc)	B. Warnack		M. Russell
		10 + 5' A clinician's perspective (& pre-clinical?)	T. Lefèvre		P. Serruys
		10 + 5' Path to market	G. Lachkar		A. Lanski
	MALLORCA	CORDIS	Y. Louvard, S. Chen, M. Pan, G. Stankovic		
		3' Introduction	Y. Louvard		
		10' Provisional Side Branch stenting in the majority of cases	M. Pan		
		14' Discussion and Virtual Bifurcation case (Provisional side branch stenting)	G. Stankovic		
		10' 2 stents approach when and how ?	S. Chen		
		15' Discussion and Virtual bifurcation case (Two stent approach)	G. Stankovic		
		3' Conclusion	Y. Louvard		
15:00-15:55	TABARCA	BOSTON (available soon)	T. Lefèvre, D. Carré, J. Ormiston		Chair: W Van der Giess
		10 + 2 data on Taxus liberté - surf registry	O. Darremont		E. Grube
		10 + 2 Distal left main in the Friend study	D. Carré		R. Mueller
		13 + 2 Petal stent	J. Ormiston		E. Grube
		10 + 2 FIM- case review	T. Lefèvre		M. Russel
		4 Discussion - conclusion			J. Ormiston
15:00-15:55	MALLORCA	DEVAX	D. Hildick Smith, E. Grube, A. Lanski		R. Solar
		10 + 3' AXXESS, 12 months follow-up	E. Grube		S. Verheyen
		10 + 3' Diverge, preliminary data	S. Verheyen		
		8 + 3' LMCA program	A. Lanski		
		13' Opinion discussion			
		5' Conclusion	E. Grube		
16:00-16:30	Coffee break				
16:30-18:00	Parallel WORKSHOPS	IVUS AND NEW IMAGING OF BIFURCATION LESIONS	Chair: S. Carlier, R. Albiero, A. Assali		
16:30-18:15	TABARCA	IVUS imaging of bifurcation stenosis: 3D reconstruction	P. Cervinka		
		10 + 5' VH in bifurcation lesions	P. Margolis		
		10 + 5' Step by step analysis of PTS strategy	M. Costa		
		10 + 5' IVUS analysis of complex techniques (Crush, culotte)	A. Erglis		
		10 + 5' Stent boost in bifurcation stenting	P. Brunel		
		10 + 5' Bifurcation angles during cardiac cycle	M. Costa		
		10 + 5' OCT in bifurcation stenting	J.F. Surmely		
16:30-18:00	MALLORCA	BENCH TESTING AND THE REAL WORLD	Chair: FX. Kleber ou J. Ludwig, G. Stankovic		
		10 + 3' Pitfalls of the techniques used in bifurcation lesions	Y. Hikichi		
		10 + 3' Potential problems with distal left main	Y. Murasato		
		10 + 3' Effect on polymeric coatings of the implantation of DES in bifurcations	P. Guérin		
		10 + 3' Stent fractures	A. Lanski		
		8 + 8 + 5' Perfused bench or modelisation: A controversy ?	N. Bénard / M. Van der Leest		
		10 + 3' Does bench testing translate into the real world ?	J. Ormiston		
18:00-18:45	Coffee break				
18:45-20:00	TABARCA	BIFURCATION AND STENT THROMBOSIS	Chair: C. Roguelov, Perreira Machado, O. Di		Chair: A. Chieffo, D. C
		15 + 3' Bifurcation lesion stenting is a predictor of stent thrombosis: Technique ? Stent ?	B.K. Koo		M. Pan
		15 + 3' Is there a biological problem ?	D. Angiolillo		M. San Martin
		15 + 3' VASP guided LM stenting	P. Barragan		J. Gunn
		15 + 3' Can we decrease the risk of stent thrombosis in bifurcation stenting ?	B. De Bruyne		F. Mauri
18:30-20:00	MALLORCA	FLOW DYNAMICS AND RHEOLOGY OF BIFURCATION LESIONS	Chair: N. Bénard, H. Mudra, Y. Louvard		P. Barlis
		15 + 5' Morphological and functional properties of biological trees based on their fractal nature	G. Finet		J. Fajadet
		15 + 5' Relationship between flow dynamics and plaque distribution in coronary tree	G. Giannakoulas		S.J. Park
		15 + 5' Patterns of fluid Shear Stress and atherosclerotic lesions in bifurcations	P. Serruys		
		10 + 3' Bifurcation stenting techniques: consequences on restenosis and ST occurrence	V. Deliplano		
		10' LM bifurcation angle, influence on mid term FU after stenting	T. Lefèvre		
		7' Bifurcation angles and clinical events			
			PANEL DISCUSSION		
SATURDAY 29 SEPTEMBER			PALAU DE LA MUSICA - SALA RODRIGO - (ENTRANCE FROM THE FOUNTAINS SIDE)		
8:20-8:30		Opening SESSION			
8:30-10:30	1	PARALELL WORKSHOP DEBRIEFING			
		10' What was accomplished by the EBC so far ?			
		10 + 5' IVUS and New imaging of bifurcation lesions			
		10 + 5' Bench testing and the real world			
		10 + 5' Bifurcation and stent thrombosis			
		10 + 5' Flow dynamics and rheology of bifurcation lesion			
		QCA OF BIFURCATION LESIONS			
		10 + 5' MV to SB transition zone in human coronaries: Unique geometric insights missed by QCA			
		15 + 5' QCA of bifurcation lesions after subcommitee meeting: PIE software			
		15 + 5' QCA of bifurcation lesions after subcommitee meeting: MEDIS software			
10:30-11:00		Coffee break			
11:00-12:45	2	SESSION	NEW DEVICES, NEW TECHNIQUES (1)		
	???		First in man : Stentys		
		6' + 2'	First in Man: Tryton		
		10' + 4'	First in man: Capella		
		10' + 4'	First in man: Trirème		
		10' + 4'	First in man: Petal		
		10' + 4'	First in man: Sidekick		
		10' + 4'	First in man: Axxess, 12 months follow-up		
		6' + 2'	Overexpansion of MB stent in front of SB in PTS strategy: bench testing		
		8' + 3'	Overexpansion of MB stent in front of SB in PTS strategy: the POT technique		
12:45-13:50		Lunch	Sala de los Naranjos at the Palau de la Musica		
13:50-15:35	3	SESSION	NEW DEVICES, NEW TECHNIQUES (2)		Chair: V. Legras, M. I.
		6' + 3'	BBC one: were are we ?		D. Hildick Smith
		10 + 5'	News from Nordic program		J. Lassen
		10 + 5'	DES in bifurcation lesions: insight from Bad Krozingen registry		
		10 + 5'	DES in bifurcation lesions: insight from the ICPS registry		
		10 + 5'	Minicrush		
		10 + 5'	TAP (T And Protrusion)		
		10 + 5'	Shunt Stenting		
15:35-16:05		Coffee break	Time available for companies		
16:05-17:30	4	SESSION	DISTAL LEFT MAIN STENTING TECHNIQUES		
		10'	Stenting across the "SB"		
		10'	Provisional T stenting technique		
		10'	SKS in LM stenting		
		10'	Crush in LM stenting		
		10'	Culotte in LM stenting		
		10'	LM stenting in 2007: when, how, where		
		10'	Consensus for Left Main stenting		
		15'	Discussion		
			EBC Consensus / No Consensus		
			Discussion		
17:30-17:55					
17:55-18:05		10'	CONCLUSIONS		
			Y. Louvard, W. Wiens
